

Welcome page. User is required to log in with google.

Linked google accounts will appear if present, otherwise user will need to provide google credentials

Varying levels of difficulty for User to choose from. Higher numbers correlate with harder mazes. Once level is selected a maze will be generated,

After the level is selected, the appropriate maze is drawn here. Each maze has a start and end point that the user must navigate the ball between. When the user completes the maze they are directed to the next screen.
